SUMMARY

BTech IT student at KPU (graduating June 2027), Dean's Honour Roll x4. Co-op at Fraser Health Authority automating infrastructure security reporting with Power Platform and Ivanti Security Controls. Shipped two live ML/AI apps. Canadian Citizen, no sponsorship required in Canada or the US (TN Visa eligible).

EXPERIENCE

Digital Enablement Co-op Student | Fraser Health Authority | Surrey, BC Jun 2026 – Present

- Scoping and automating infrastructure vulnerability reporting across 1,000+ managed servers using Ivanti Security Controls and Microsoft Power Platform (Power Automate + Power BI).
- Producing data inventory, CMDB field-mapping, and target-state monthly dashboard validated with Infrastructure and Information Security leadership.
- Delivering operational runbook, data dictionary, and sustainability recommendations as co-op handoff package.

Office Administrator | Nexgen Electrical Ltd. | White Rock, BC Mar 2025 – Present | Part-time

- Processing \$800K–\$1.2M/month in invoices, SOVs, and POs across a \$15–20M active project portfolio; managing payroll for 30+ employees in QuickBooks.

PROJECTS

Sentinel AI — Autonomous ML Web Firewall 2026

Python | Scikit-Learn | FastAPI | PostgreSQL | TF-IDF | JUnit 5 | [Live Demo](#) | [GitHub](#)

- 92% accuracy, 0 false negatives on all critical-severity cases across SQL injection, XSS, and OS command injection.
- Random Forest trained on 24,161 labeled payloads with character-level TF-IDF n-gram vectorization (n=1–4, 80K features); detects mixed-case obfuscation at confidence 1.00.
- Deployed as FastAPI + PostgreSQL multi-tenant API with SDKs in PHP, JS, and Python; real-time IP blacklisting with zero manual intervention.

Spending Spotlight — AI Bank Statement Analyzer 2025

React | OpenAI API | Python | Flask | Vercel | [Live Demo](#)

- Full-stack app: PDF upload → OpenAI classification → unexpected spend flagged against user-defined categories. Live on Vercel.
- Diagnosed Chase statement noise injection; engineered pattern filtering to eliminate false transactions end-to-end.

TransLink Transit Intelligence Pipeline

2026 / In Progress

PostgreSQL | Flask | Chart.js | GTFS | K-Means (stretch) | Technical Lead | [GitHub](#)

- Designing a GTFS-powered commuter dashboard (242 routes, 63K weekly trips) with plain-language route recommendations and Network / Route / Stop drill-down views.

Text-to-SQL Query Generator

2025

Python | SQLite | OpenAI API | Jupyter | [Open Notebook](#)

- Natural language to SQL via GPT; strict prompt constraints (temp=0, regex post-processing) ensure only valid SELECTs execute. Self-tested: 92% simple SELECT, 85% WHERE, 70% aggregations.

SKILLS

Data & Analytics: Microsoft Power Platform | Power BI | Power Automate | Tableau | Jupyter / Colab | Data Visualization | Security Reporting

AI / ML: Random Forest | TF-IDF Vectorization (char-level n-grams) | OpenAI API | Prompt Engineering | Scikit-Learn | Pandas | NLTK

Languages: Python | JavaScript (React) | SQL | PHP | Java | HTML / CSS | C#

Databases: PostgreSQL | MySQL | SQLite | ERD & Relational Design | CSV-to-DB Pipelines

Frameworks & Tools: FastAPI | Flask | React | Git | Vercel | QuickBooks

Concepts: Agile / Scrum | SDLC | SQA | Black-Box Security Testing | REST APIs | Information Retrieval

EDUCATION

Bachelor of Technology — Information Technology

Expected June 2027

Kwantlen Polytechnic University | Surrey, BC | GPA: 3.41 / 4.33 | Dean's Honour Roll x4 (Fall 2024, Summer 2025, Fall 2025, Spring 2026)

Relevant: Data Warehousing & Mining (A) | Advanced Web App Dev (A+) | Search Engine Principles (A-) | SQA (A-) | Mobile Programming (A+) | Project Management (A-) | OO Software Engineering | Database Systems | Statistics

Diploma — Computer Information Systems

2021

Kwantlen Polytechnic University | Surrey, BC
